To ensure proper documentation of these technical exchanges, the JDG will prepare and submit to EPA, TCEQ and the NR Trustees our responses to the memorandum from Vickie Reat. We will resolve the "issues still to be resolved" prior to submitting our formal response. Anchor will continue to work with Vickie to finalize those issues.

We appreciate the continued assistance and collaboration.

**Subject:** Review of Patrick Bayou amended COPC report

Joe -

I have completed my review of the following document:

Amendment to the Selection of Contaminants of Potential Concern (COPCs) for Ecological Risk, Technical Memorandum  
Patrick Bayou Superfund Site - Deer Park, Texas  
Prepared for the Patrick Bayou Joint Defense Group (JDG) by Anchor Environmental, L.L.C.  
October 2008

Recall that I sent preliminary comments and questions to Anchor representatives on November 26. Since then I have received 2 e-mails from Jason Kase of Anchor and further discussed my comments with Anchor representatives on December 8. This memo details issues still to be resolved. These few comments should not delay the JDG in their efforts to develop an ERA work plan and should not impact any planned field work.

I have included the e-mail exchanges with Anchor (Jason Kase) as a pdf attachment. The figures that are imbedded in the first e-mail don't show up, but are displayed on 6 of the pdf file.

Please let me know if you have any questions. I will bring you a signed hard copy of this memo for your records.

Vickie
